Joseph,

Concerning your yesterday's call to me advising that Lear Corporation's response will include hundreds of documents.

You asked how the U.S. Environmental Protection Agency (EPA) prefers the response be submitted, i.e., response to EPA in form of paper documents or in form of a CD containing images of paper documents.

Please submit response to the EPA in form of a CD containing images of paper documents.

December 3, 2011, falls on a Saturday. Therefore, the EPA will consider the response to timely submitted if it is mailed and post marked by the U.S. Post Office anytime prior to midnight on December 5, 2011.

Robert Werner  
Enforcement Officer  
U.S. Environmental Protection Agency
